

MULTISTREAM

Date : 28-08-2007

Ref: Installation of Bio-Digester on Black Liquor. (Prehydrolysate liquor
Instead of black liquor)

This is to certify that M/s. United Envirotech Pvt. Ltd., a Pune based company has successfully completed (revamped) the Bio-digester on UASB process for the treatment of effluent generated from manufacturing of rayon grade pulp at Harihar Polyfibers Ltd., Kumarpatnam. The digester is operated without dilution water and we are getting better COD reduction and gas generation.

The designed system is user-friendly and giving satisfactory results since the commissioning of the plant.

We wish M/s. United Envirotech Pvt. Ltd. all the success in their future venture.

For Multistream Greens Pvt. Ltd.

Ramesh Madhavan
