:- TO WHOM SOEVER IT MAY CONCERN :-

This is to certify that, M/s. United Envirotech Pvt. Ltd., Pune have conducted trial on pressmud composting with their specially developed herbal compost culture. The observations are as follows.

The spent wash consumption ratio is 1.5 times more than that of conventional culture used by us.

The quality of compost is better in terms of C:N ratio. The overall hygienic condition on trial windrows was found good as no odour & flies/insects were noticed.
