

# Creating Value out of waste & waste water

## Sustainable Treatment Processes

### Anaerobic Technologies

HydroThane STP® SWD

HydroThane STP® SWD (Solid Waste Digestion)

HydroThane STP® UASB

HydroThane STP® UASB (Upflow Anaerobic Sludge Blanket)

HydroThane STP® EGSB

HydroThane STP® EGSB (Expanded Granular Sludge Bed)

HydroThane STP® ECSB 'Easy as Be'

HydroThane STP® ECSB (External Circulation Sludge Bed)

### Company

HydroThane is a group of companies specialised in Biological (Industrial) treatment systems. The name HydroThane is a combination of the two words, Hydro (water) and meThane (gas), which indicates their sustainable green energy producing treatment processes. More than 650 waste (water) treatment plants all over the world are designed-build-started up by the team of HydroThane in many type of industries, like pulp & paper, beverage & softdrink, brewery, (bio) ethanol, yeast, fruitjuice, distillery, dairy, pharmaceutical, chemical and many others.

United Envirotech Pvt. Ltd. have a technology tie-up with M/s. HydroThane STP BV of The Netherlands and formed a Joint Venture Company 'United HydroThane India Pvt. Ltd.' to take up high rate anaerobic treatment plant.

**This will be an added advantage as the European Technology is available at Indian price.**

### Biogas Treatment

HydroThane STP® CSP

HydroThane STP® CSP (Chemical Scrubbing Process)

HydroThane STP® BSP

HydroThane STP® BSP (Biological Scrubbing Process)

UE Cleangas

Bio-Chemical Scrubber for Cleaning of Bio Gas
